

Ski Enthusiasts Happy With Snow

Tribune Photo by Del Borer.

There are some Iowans who are happy about Iowa's March snow—the ski enthusiasts. Ted Kalen (center) of 2816 Sheridan ave., Des Moines, happily checked rope tow he has installed on ski slope just off Highway 141, a mile north of the Grimes intersection (about 10 miles from Des Moines). At left, at power plant for the

tow, is Harlan Sorber of 1107 Lynn st. Testing skis is William Janson (right), 17, of 3200 Thirtieth st. Shelter house for the ski project Kalen has been working on for about a year is in background. Lights permit skiing at night. Skiers may use the slopes free, but are charged \$3 a day for use of the quarter-mile tow.
