

## Plan Ski Hill Development Near Waupaca

WAUPACA—Local ski enthusiasts have voted to develop a ski hill on the Ray Hemmingson farm, four miles west of Waupaca on Highway 10.

The profit making organizations will incorporate as Waupaca Chain o' Lakes Ski Club Inc. Officers will be elected next Wednesday.

The Hemmingson hill was chosen as the most suitable in the Waupaca area following ground and aerial surveys. It lies on the south side of the highway.

A 10-year lease arrangement with Hemmingson allows the corporation to remove timber from the hill and develop a ski area of approximately 15 acres. The area is 375 feet wide and extends from the highway south to a point near the crest of the hill.

Long range plans of the group include hill improvements, construction of one or more ski tows and possible erection of a chalet.

Donald Lewis served as acting chairman of the meeting at which it was voted to set up the corporation.
