Install Ski Tow On Slinger Hill

A motor for a ski tow is being installed on the ski hill 300 yards east of the center of the village. This hill, one of the newer ones in the county, is being developed by Ed. and Irving Herte of Slinger.

The run is about 1,200 feet long and up to 400 feet wide, and a warming house has been provided. Ski instruction will be given there by Nils Jorgensen of Milwaukee.

Two older ski hills to be in operation again this year are Holy Hill and Powder Hill. Powder hill, located four miles off Highway 41 on Highway 60, was opened up last year by Ray Wolf of Richfield. Fox hill near Big Cedar lake is another ski run opened recently by the Milwaukee Oconomowoc Ski club.
