

Boyne Ski Lift To Be Enlarged

BOYNE CITY —Charles Moll, manager of the Boyne Mountain ski lodge, has announced that construction is underway to double the capacity of the famed chair lift at Boyne Mt. The project is expected to be completed in time for the summer season.

Foundations for the king posts have been poured and the erection that will support the double lift of the steel towers will start as soon as weather permits. When completed, the lift will be the fifth double lift in the United States.

Roy Asher, Boyne Mountain pro has been working on the project.
