

Plan Big Resort Near Marquette

\$3 Million Project Is Announced

MARQUETTE (UPI)—Two Milwaukee land developers have outlined plans for a \$3-million resort area along Lake Superior.

John Z. Zerbel and Harry M. Wirth said the group they head has applied to the Area Redevelopment Administration for a loan to help carry out the plans.

They said the resort area will be known as "Superior Land" and will stretch from Marquette to Big Bay.

A 25-mile scenic railroad, the Lake Superior and Ishpeming, runs through the area.

Zerbel and Wirth said a sight-seeing train will run along the route to Big Bay where they plan to locate a Swiss Alpine village.

They said the resort area will also include a ski area, mining and railroad museums, a restaurant, a store and a summer stock theater.
