

Lakota Ski Club Builds New Tow

LAKOTA, N. D. (Special) — Construction of a tow for the use of beginners is under way at the Blue Mountain Ski area south of Lakota. Brush clearing has been started and poles and pulleys set up by members of the Lakota Ski Club, initiators of the project.

The county has donated a 12 by 18-foot frame grain bin to be converted for use as a warming house.

Among volunteers working on the project are John Swanke, Matt Ettle, Jeery Kuck, Lyle Dykhoff and Willaim Drummond.
